(+91) 7846906604 | debashispani61@gmail.com | GitHub | LinkedIn | LeetCode

## Education

**B.Tech in Information Technology**, Kalinga Institute Of Industrial Technology  
CGPA: 8.22 (Up to 6th Semester), Graduation Year: 2026

---

## Experience

### SDE Intern, NTRO (National Technical Research Organisation)

May 14 – Aug 20, 2025

- Worked on a government-backed, high-security application involving full-stack development using **React**, **FastAPI**, **Laravel**, **PostgreSQL**, and **Docker**.
- Automated CI/CD deployment pipelines using Docker and Python, reducing manual deployment effort by **50%**.
- Implemented containerized environments for modular, isolated, and maintainable services.

### SDE Intern, Remodel Ai

Feb 2025 – Apr 2025

- Built a real-time voice calling application using WebSockets, OpenAI's voice API, and Twilio, reducing latency by **35%**.
- Integrated backend systems supporting high-concurrency workloads, improving system reliability by **20–30%**.

### Smart India Hackathon 2024 - Grand Finalist (Tech Lead)

- Led a team of 6 to build **Market Scout**, a MERN-based price comparison engine reducing search time by **40%** using Playwright + Redis.
  - Delivered an MVP with **98%** functionality coverage on time.
- 

## Projects

### Patient Management System (Microservices)

Built using **Spring Boot**, **gRPC**, **Docker**, and **PostgreSQL**. Implemented microservices with Kafka-based communication and secure data exchange:

- **Patient Service** – manages patient records and medical details.
- **Billing Service** – handles billing, invoices, and payments.
- **Analytics Service** – provides insights and reports using patient and billing data.

Code: [github.com/pani2004/Patient-Management-System](https://github.com/pani2004/Patient-Management-System)

---

### SKYPACS - Picture Archiving and Communication System (PACS)

Developed a PACS server using the **MERN stack** to manage DICOM images. Deployed on a self-hosted home server using **Docker**, **Nginx**, and **GitHub Actions** for CI/CD.

Demo: [skypacs.in](https://skypacs.in)

---

### OneBox Email Aggregator (AI + Real-time Sync)

An AI-powered email management platform built with **TypeScript**, **Express.js**, **React**, **Prisma**, **Postgres** and **Docker**.

- Real-time IMAP sync with persistent connections.
- Integrated **Elasticsearch** for full-text email search and filtering.

Code: [github.com/pani2004/OneBox](https://github.com/pani2004/OneBox)

---

### Real Estate - A MERN Real Estate Application

Built using the MERN stack

Code: [github.com/pani2004/Mern-Estate](https://github.com/pani2004/Mern-Estate)

Demo: [mern-estate-932i.onrender.com](https://mern-estate-932i.onrender.com)

---

### Portfolio Using React & Tailwind CSS

Personal portfolio website showcasing projects and skills.

Demo: [portfolio-beta-liart-56.vercel.app](https://portfolio-beta-liart-56.vercel.app)

Code: [github.com/pani2004/Portfolio](https://github.com/pani2004/Portfolio)

---

## Technical Skills

**Languages:** C++, Java, C, HTML, CSS, JavaScript

**Frameworks/Libraries:** React, Tailwind CSS, Express.js, FastApi, Spring Boot

**Databases :** PostgreSQL, MySQL, MongoDB,

**Tools:** Docker, Git, GitHub, Prisma, Kafka, Redis, AWS EC2
